Hello Dan,

Hope you had a great weekend. You may have noticed my breathing issues while there and those ended up getting worse. The next day had to be picked up at Frontenac by EMS who took me to Mayo in Lake City and subsequently transferred me to Mayo's St Mary's Campus. For as chaotic as that night was, the Goodhue Sheriff who responded with the EMS made it go smooth. They even made arrangements with a fellow camper to watch Sammy Jo while I was gone instead of just dumping her in a shelter.

Since I have a break in-between appts, thought I would work on some emails. Guess it could be viewed as extreme multitasking. If you can, can you email me copies of the blueprints that were part of the folder. It would save me a few bucks in having them scanned at Fed Ex after I am discharged.

Hope you have a great day,

Douglas

Hi Douglas,

Our hours are 7am to 11am on Fridays. I will have it at Missy's desk incase I'm out on inspections. Have a good day, hope all is well.

Thank you,

Dan Simonson | Building/Zoning Inspector

Hello Dan:

Thank you for your response. I had a lot of medical appts in Rochester this week but will be in tomorrow to pick up the folder from Missy. Thank you for putting those things together for me and have a nice afternoon.

Douglas

Subject: 521 Maple Street Data Request

Hi Douglas,

I received your data request for 521 Maple Street. I have copies of the following:

1. Building permits
2. Mechanical permits
3. Plumbing permits Fire permits alarm permits
4. Building, plumbing, and mechanical blueprints
5. Copies final electrical inspection from State Electrical Inspector
6. Air sample and quality reports
7. All inspection documentation

I made paper copies of all documentation on the entire project. It's too big to send electronically, so if you want to stop by the Building Department at 419 Bush Street, I will have a folder with your data request. It will be with Missy at the front desk.

Let me know if you have any questions.

Thank you,

Dan Simonson | Building/Zoning Inspector
